CAPABILITY STATEMENT / ATLANTA, GEORGIA

SUPPLY GROUP SOLUTIONS LLC

Government contracting | Product sourcing | Service coordination

ABOUT THE COMPANY

Supply Group Solutions LLC is a new Atlanta-based company pursuing government and commercial purchasing opportunities. We review bid requirements, obtain supplier pricing, and determine how products or services can be delivered before submitting a quote. For service work, we may use qualified subcontractors when the solicitation permits it.

WORK WE ARE PURSUING

- **Product sourcing —** Locating suppliers, comparing quotes, and checking product specifications, availability, and delivery terms.
- **Purchase orders and supply requests —** Evaluating opportunities for office, facility, and other routine operational supplies.
- **Service contracts —** Reviewing project scope and identifying qualified service providers for work we cannot perform directly.
- **Vendor coordination —** Confirming pricing, lead times, documentation, and fulfillment responsibilities with prospective suppliers.

HOW WE EVALUATE AN OPPORTUNITY

We check the scope, required qualifications, delivery location, deadlines, and payment terms. We obtain pricing and confirm a realistic fulfillment plan before deciding whether to bid. We do not submit proposals for work we cannot reasonably support.
